## EXPERIENCE

**SysAi.Lab** | MERN Stack Developer

May 2023 - Present | Karachi, PK

Worked on pre-existing codebase and documented undocumented code, worked on multiple standalone projects. Additionally participated in team activities such as Creating a Project Management Notion Book, Created Design Material, Improved the UI/UX of various user views.

**Career path:** MERN Stack Developer • Worked on Various User Views • Got Familiar with C-panel hosting.

### Team Role

- Created Team & Project Management Tool using notion
- Initiated design changes for better user-experience
- Identified product flaws and requirements for additional features

### MERN Stack Developer Role

- Designed Admin and Teachers Panel to manage courses
- Controlled code maintenance and development
- Worked with C-Panel for Node and Front-end hosting

**Artistic Milliners Unit-5** | Developer Intern

Jul 2022 – Aug 2022 | Karachi, PK

Worked with amazing team leads of Artistic Milliners to start an In-House SCADA App Project for better learning.

- First exposure to a professional environment.
- Worked with brilliant team leads to initiate an in-house SCADA App.
- Design UI/UX for SCADA App.

## Final Year Project

Aug 2022 – Apr 23 | Karachi, PK

Created a **MERN Stack web app** in Collaboration with **Artistic Milliners** that can Monitor their total Energy Consumption and Generation and displays that in easy-to-read graphs. The App also has in-depth views of each power house and engine views.

## Side Hustles

Jun 2019 – Present

Apart from doing my professional activities I love making games and virtual environments and to satisfy this urge of being a creative I started [OkraDev](#) and [OkraGames](#)

- Participated and earned great ratings in various game jams.
- Created various side projects, Instagram posts to teach and to demonstrate my skills.
